

MONTREUX JAZZ CAFÉ
-ZURICH-

The Montreux Jazz Festival, founded in 1967 by Claude Nobs, has become one of the most prestigious international cultural events in the world, drawing 250,000 visitors each summer to the shores of Lake Geneva in Switzerland. In this inimitable setting, Nina Simone, Miles Davis, Ella Fitzgerald, Marvin Gaye, Prince, David Bowie, and Stevie Wonder have given historic performances.

Trained as a chef, the founder took his passion for gastronomy and his sense of hospitality far beyond the Festival: thus the Montreux Jazz Café was born, designed as a welcoming space where cuisine and music could combine in a way never seen before.

At the Montreux Jazz Festival, proximity between the biggest musicians and the public, comfort, and an eye for details result in historic concerts and encourage the appearance of memorable moments. It's that fine touch and know-how that we wish to share with you.

We offer a menu of dishes crafted with the very passion so characteristic of those inimitable Montreux moments: our famous B.B. Burger and the succulent Ella's Cheesecake

The Festival showed great vision in recording every single concert from the very beginning, and this unique audiovisual archive has been recognized by UNESCO through inclusion in the "Memory of the World Register". We invite you to relive this musical odyssey at our comfortable Cafés, which feature exclusive access to the archives.

In the area? On a trip around the world? We hope you enjoy your time with us, and wish you bon appétit!
